Chris-Robby Twungubumwe

Software Developer | Next.js, React, Node.js, Python, SQL, Process Automation
Montreal, QC | chrisrobby38@gmail.com | (514) 944-5441
linkedin.com/in/chris-robby-twungubumwe | github.com/chris-robby | theartofconsistency.app
Canadian Citizen | Fluent in French and English | Based in Montreal

SUMMARY

Computer Science student (BSc, graduating December 2026) who turns manual processes into digital solutions. Built and runs a full stack Next.js, React and Node.js product with PostgreSQL and dashboards, replaced a choir's manual tracking with a web application used by 30+ members, and automates deployments with Docker and CI/CD. Strong in SQL, data modelling, testing and documentation; fluent in French and English.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, HTML/CSS, Vue.js, Chart.js dashboards, responsive and mobile-friendly UI/UX

Backend: Node.js (Express), Python (FastAPI), Java (Spring Boot), C# and ASP.NET in Visual Studio, REST APIs, JSON, web retrieval

Data: SQL, PostgreSQL, MySQL, Supabase, MongoDB, data modelling, relational database design, reporting dashboards, data validation

Deployment and Tools: Docker, Git (pull requests, code reviews), GitHub, Azure DevOps, CI/CD (GitHub Actions, PowerShell), Kubernetes, Terraform, AWS, Azure

Quality: Unit and integration testing (Jest, PyTest), Cucumber, troubleshooting, documentation (README)

Languages Spoken: French (fluent, written and spoken), English (fluent), Sign Language (intermediate)

PROJECTS

The Art of Consistency | Full stack SaaS with real users, theartofconsistency.app — *Solo Founder & Developer*

- Designed, built and maintain a bilingual web application with Next.js, React, TypeScript, Node.js and PostgreSQL, including data models, Google OAuth, Stripe payments and webhooks.
- Built Chart.js dashboards that give users a clear view of their data, and two automation features on the Claude API (vision OCR, LLM-driven weekly evaluation).
- Supported real users and acted on their feedback (fixed UI inconsistencies, simplified screens); Jest tests and CI/CD. First version, Blueprint, was a React mobile app.

Digital Library for a Choir | Process modernization, 30+ members — *Vue.js, Supabase, REST APIs*

- Analyzed a manual process (tracking scores, audio and each member's contribution) and replaced it with a web application: independently deployed services for authentication, storage, a member view and an admin spreadsheet-style overview. Used by 30+ members; saved time and improved consistency.

touchgrass | Automated site, chris-robby.github.io/touchgrass — *TypeScript*

- Built a TypeScript website that retrieves free activities in Montreal from the web and refreshes every morning, with a mobile-friendly discovery page and bilingual content.

Banking Web Application | REST API and database — *Java, Spring Boot, React*

- Built a REST API with CRUD operations, data validation, exception handling and relational database integration, with unit and integration tests and a React front end.

Cloud-Native Microservices Platform | Deployment environments — *Docker, Kubernetes, Terraform*

- Containerized services with Docker, deployed them to Google Kubernetes Engine with Terraform, migrated them to Red Hat OpenShift, and automated deployments with CI/CD; troubleshot pods to root cause.

EXPERIENCE

Freelance UI Developer | Chrisland Engineering — *Riipen project*

- Translated a company's needs into the UI/UX screens of its application, built in JavaScript, through a freelance project on Riipen.

Supervisor | Metro — *Sept 2025 to Present*

- Coordinate the team, troubleshoot service and equipment problems in real time, communicate with customers and staff, and handle cash counting, deposits and closing with accuracy.

EDUCATION

Concordia University, Montreal, QC | BSc, Computer Science — *Jan 2024 to Expected Dec 2026*

Coursework: Data Structures & Algorithms (A+), Software Engineering, Databases (SQL, MySQL), Web Development, Operating Systems, Networking, Introduction to Artificial Intelligence; Accounting, Real Estate Finance, Personal Finance
